

# OXFORD-GRENOBLE ALPES SYMPOSIUM

30 years of collaborative research  
in Advanced Materials and  
Biological Structures

<https://workshops.ill.fr/e/oxford-grenoble-symposium>

27-28 May 2019

Institut Laue-Langevin, Grenoble, France

The Oxford-Grenoble symposium will contribute to the celebrations of the 30 year twinning of the cities of Oxford and Grenoble. It will be part of a number of other initiatives including the performance of the twinned choirs of the two towns (25 -26 May), and the renaming of the Presqu'île tramstop (18 May). Attending the symposium will be Oxford and Grenoble scientists with a strong collaborative link to the sister city in the fields of chemistry, material science, soft condensed matter and structural biology.

## Guest speakers from Oxford

**Andrew Boothroyd** - Department of Physics

**Robin Cleveland** - The Institute of Biomedical Engineering

**Andrew Harrison** - School of Chemistry

**Mike Hayward** - Department of Chemistry

**Elsbeth Garman** - Department of Biochemistry

**David Stuart** - Nuffield Department of Clinical Medicine

**Robert K. Thomas** - Department of Chemistry

**Jeffrey Penfold** - Department of Chemistry

**Anthony Watts** - Department of Biochemistry

**Special insight on development  
of high-tech cities**

**Helen Lawton Smith**

University of London

**Dimitris Assimakopoulos**

Early Makers, Lyon

**With the participation of  
Oriël Petry (British Embassy Paris)**

**Patrick Levy (President UGA)**

Organisers :

L. Bouhrizi (UGA), M. Bowler (EMBL), G. Fragneto (ILL), R. Jacobs (Oxford University), J.-F. Legrand (Alliance Grenoble-Oxford), E. Mitchell (ESRF), C. Petosa (IBS)
