MARINA URBINA | LITEN CEA GRENoble

Marina Urbina is European Programme Manager of the Nanomaterials Technologies Division at the Laboratory for Innovation in New Energy Technologies and Nanomaterials (LITEN) within the Alternative Energy and Atomic Energy Commission (CEA). She is also member of the National Contact Point for the theme NMBP (Nanotechnologies, Advanced Materials, Biotechnology and Advanced Manufacturing and Processing) of the Horizon 2020 European Programme, member of the Executive Board of NANOFUTURES Association and Chairwoman of its Research and Technology Working group.

She has participated as partner of European Coordination and Support Actions devoted to Nanosafety, Key Enabling Technologies, Materials for Energy, Renewable Energies, Additive Manufacturing Technologies, Circular Economy, Structural Funds and Co-funding topics. Besides, since 2012 she has participated and coordinated the setting up of around 80 European proposals, with a success rate of more than 30%. She obtained a PhD in Chemistry from the University Autonoma of Madrid in 1999 awarded by a Spanish Government National Grant and was beneficiary of a Post-Doctoral Marie Curie European Grant in the Large Group Rhodia Researchers in Paris, nowadays Solvay.
