

# Bilayers at the ILL

## Thursday, 12 December 2019

### Session F - Chadwick Amphitheatre (16:30 - 18:00)

time	[id] title	presenter
16:30	[44] Drug delivery of antimicrobial peptides to lipid bilayers	BROWNING, Kathryn
17:00	[38] Elucidating the mode of action of antimicrobial peptides using small-angle X-ray and neutron scattering techniques: the lipids point of view	LUND, Reidar
17:20	[39] Lipoproteins at model cell membranes, and the transport of fats	CÁRDENAS, Marité
17:40	[41] Structural changes of pulmonary surfactant induced by bacterial lipopolysaccharide and by Polymyxin B	UHRIKOVA, Daniela
