

Bilayers at the ILL

Friday, 13 December 2019

Session H - Chadwick Amphitheatre (11:00 - 12:30)

time	[id] title	presenter
11:00	[12] pH-induced rearrangements in lipid bilayer causing in drug release from pH-sensitive liposomes	ZABOROVA, Olga
11:20	[46] Role of membrane sphingolipids in the interaction with amyloid beta-peptide	CARROTTA, Rita
11:40	[21] Adsorption and interactions of polymer stabilised lipid nanodiscs with a bilayer at the solid-liquid interfaces	ARNOLD, Thomas
12:00	[67] Dynamic polymer-based nanodiscs for membrane biophysics	KELLER, Sandro
