

# KATIA ARTZT

*RESEARCH ASSOCIATE AT THE GERMAN AEROSPACE CENTER*

**KATIA ARTZT | GERMAN AEROSPACE CENTER – INSTITUTE OF MATERIALS RESEARCH –  
RESEARCH GROUP MATERIALS DESIGN**

Dr. Katia Artzt studied Material Science at the University of Stuttgart. In her PhD thesis she investigated oxide ceramic matrix composites at the Ruhr-Universität Bochum and the German Aerospace Center in Cologne. Since 2016 Dr. Artzt is focusing on metal additive manufacturing.

She has specialized in process-materials properties-performance relationships. With her thorough background in materials research and processing technology, Dr. Artzt aims to transfer the understanding from fundamental studies to complex additively manufactured components.
