## Wednesday, 15 March 2023

### Molecular interactions at the membrane surface (11:00 - 12:40)

time	[id] title	presenter
11:00	[92] Decorated vesicles - Interactions between $\alpha$ -synuclein and lipid membranes	Prof. SPARR, Emma
11:40	[22] Septin oligomerization induces Membrane Remodeling	Dr MILHIET, Pierre-Emmanuel
12:00	[38] Effect of trodusquemine on the nanomechanical properties of biomimetic neuronal membranes on solid support	LEONARDINI, Beatrice
12:20	[80] The transport activity of Patched and its role in chemotherapy resistance	MUS-VETEAU, Isabelle
