Interaction lipids/polymers/membrane proteins (08:30 - 10:10)

time	[id] title	presenter
08:30	[37] Unraveling the working mechanism of a tumor suppressor lipid	Prof. HOLTHUIS, Joost
09:10	[49] SANS for membrane proteins	MARTEL, Anne
09:30	[32] Membrane permeabilization can be crucially biased by a fusogenic lipid composition: antimicrobial peptides and model membranes	Dr HOERNKE, Maria
09:50	[81] Spectrin β II suppresses endosomal vesicle trafficking by regulating membrane dynamics	Mr KITAGAWA, Daichi
