

John White Symposium

Contribution ID: 16

Type: not specified

My forty years of interactions with John White

Friday, 19 July 2024 10:10 (20 minutes)

I will briefly tell the long adventure with John, starting with pin-echo “puzzle” on SDS in 191, then building several versions of the Huxley-Holmes at RSC in Canberra near John’s office, and later crossing paths with John on always puzzling questions till the extraordinary Lecture John gave over video transmission for the fifty years of D11.
