

# School and Conference on Analysis of Diffraction Data in Real Space

## Wednesday, 14 January 2026

### Conference second session - Auditorium (16:00 - 18:00)

-Conveners: Gabriel Julio Cuello

time	[id] title	presenter
16:00	[132] Intermediate-range order in glassy oxide materials revealed by topological analysis	ONODERA, Yohei
16:45	[133] Structural Fingerprints of Plasticity: Linking the Shear Transformation Zone Size to Pair Distribution Functions in Metallic Glasses	LEMKOVA, Valeria
17:10	[134] Whole-nanoparticle-ensemble refinements of compositionally complex systems from X-ray pair distribution function data via the Reverse Monte Carlo method	NIELSEN, Tobias Molgaard
17:35	[135] Structural evolution of Tungsten Oxide Network during WO <sub>3</sub> .H <sub>2</sub> O formation	SASSOYE, Capucine
