

X-RAY AND NEUTRON SCIENCE

International student summer programme

at the European Photon & Neutron Science Campus (EPN), ILL/ESRF, Grenoble, FR

**2-29 Sept
2026**

The ILL/ESRF International Student Summer Programme on X-Ray and Neutron Science is aimed at **undergraduate students**. It will consist of a **4-week experimental project** embedded in a research group of ESRF or ILL, together with a **series of introductory lectures** on the principles and applications of X-ray and neutron science (magnetism, materials science, soft matter, structural biology, imaging, etc.).

Undergraduate students from a **Member Country (or Scientific Associate Country) of ESRF or ILL** are eligible to the Summer Programme. The number of participants is limited to about 20.

All **selected participants** will receive a financial support and free accommodation in Grenoble.

**DEADLINE
for application
28/02/2026**

Organization Committee
Luigi Paolasini (ESRF)
Paul Steffens (ILL)
Laurence Tellier (ILL)
